

The journey where O'Donnell Designs meets the stunning Municipal Building, Liverpool

O'Donnell Design Ltd is pleased to announce that one of their latest projects will take them to Liverpool, the home of The Beatles, Jodie Comer, Vivienne Westwood and Cilla Black to name a few.

Recent plans have been unveiled to convert Liverpool's Municipal Building into a 180 room boutique hotel and O'Donnell Design has been commissioned to supply all fitted and free standing bedroom furniture (excluding seating). This superb, Grade II listed building on Dale Street dates back to 1862, and was used by council staff up until 2016. The property boasts grand pillars, decorative vaulted ceilings and marble fireplaces, and the £35 million project is keen to "sympathetically reinstate original features".

The Design Consultancy, chosen by the owners, has been asked to deliver "a lavish makeover" of the building, with the property set to open in late 2022. Facilities will include a brasserie with all-day dining menu, a tea-room and cocktail bar, as well as a spa with pool, jacuzzi and treatment facilities.

Headboard

It was announced in February this year that the French hospitality giant, Accor, is to run this magnificent hotel under its MGallery brand. A brand that features boutique hotels, each with its own original design and unique stories to tell. With over more than 100 boutique hotels, the MGallery collection allows you to discover more than 30 destinations around the world. Their ethos is that places are more than just timber and walls, they are masonry with history. They are outstanding stories to be read and lived.

O'Donnell Design is beyond excited to be offered this wonderful opportunity and be part of an amazing journey alongside the MGallery brand. With our 120 year, fourth generation expertise in manufacturing, we are more than confident that our experienced craftsmanship and design will embellish the experience of an indulgent stay in this magnificent building. We will post regular updates on social media and on our website.
